PROJECTS

My Portfolio
| 🌐**https://pulak-mahata.github.io/Pulak-Portfolio/**

📅 September 2022

- I'm learning full stack web development and this is my first project using html, css and JavaScript. I'll improve and optimise my Portfolio using more technologies.

Ecommerce Website
| 🌐**https://magical-caramel-d01b6c.netlify.app/**

📅 January 2023

- I have created Front-End part of a ecommerce website using REACT JS and I have also used Material UI and Styled Components. Currently I'm working on Back-End part of this website.

Music Player
| 🌐**https://pulak-mahata.github.io/Spotify/**

📅 December 2022

- This is a simple music player website,Where you can listen some limited songs now. I am working on this site to improve it by adding more technologies.

ACHIEVEMENTS

- I had participated in a technical quiz competition in college , and won the Third prize.
- During pandemic ,I used to teach many students of class 9 and 10,at free of cost.

SKILLS

Programming Language
